TOOLS

I'm a UX designer with a passion for visual elements. My background is in various trades where I learned the value of delivering results to clients. UX allows me to incorporate my illustrative skills into a design philosophy rooted in user centered problem solving.

EDUCATION

General Assembly
UX Design Immersive
April-June 2016

10 week, 500+ hour UX design immersive built around agile methodologies incorporating 5 projects. Below is a featured project:

- Hubway: 7 day individual Mobile app project
- Interviewed 10 Hubway users in the field
 - User centered thinking, sketching, iterating and usability testing to shape app design
 - Maintained existing brand style guide and delivered a clickable high fidelity UI prototype

UMass Boston
Undergraduate
2012-2014
